

To whom it may concern,

The present is to inform that I will be finishing my Masters in Computer Engineering. I want to thank the Nuclear Regulatory Commission (NRC) for accepting me into the fellowship program. Thanks to the experience in graduate school I was able to obtain two internships at Lawrence Livermore National Laboratory (LLNL). In turn because of those experiences I also found several opportunities to work in the Federal Government. I will be starting work at Naval Explosive Ordnance Disposal Technology Div (NAVEODTECHDIV) in Indian Head, MD. I hope to be able to comply with the contract agreement with this Federal job while also contributing to the men and women in uniform.

Once again I would like to thank you, the NRC, for the opportunity you have given me and I hope to continue to move forward.

Thank you for your attention,

~Yesenia D. M.
