Subject: release of radioactive materials into the environment and marketplace '99

DOCKETED  
USKRC

DEC 22 A 9:00

Dear Sir. We are writing to let you know how deeply we oppose the release of radioactive materials into the marketplace and into the environment. The plan to do so coming as it does, at this season of the year, makes a mockery of "goodwill to men". It would be a mockery of any attempt to bring true peace to the planet at any season, given the known effects of radioactivity on germ plasm. Please do not let this plan go forward.

Sincerely, K & Bill Boniface
