Subject: Radioactive materials recycle and reuse policy

99 DEC 22 9:37

NRC Chairman Richard Meserve
Attn. Rulemaking and Adjudications Staff
We ask that you NOT implement any policy which would permit radioactive materials to be introduced into products to which anyone would be exposed. We regard this concept as a most sinister violation of the public trust. Such materials should instead be carefully isolated. Further, we ask that the term for public comment on this issue be extended. My mailing address is 3611 Childers Rd., Roswell, GA 30075, and my telephone is 770 993 8021.
