

DOCKET NUMBER  
DEC 22 1999

December 21, 1999

Secretary  
U.S. Nuclear Regulatory Commission  
Rulemaking and Adjudications Staff  
11555 Rockville Pike  
Rockville, MD 20850

DOCKET NUMBER  
PROPOSED RULE **PR 20**  
(64FR35090)

Re: Comments on Control of Release of Solid Materials at Licensed Facilities

470

Dear Secretary:

Enclosed is a corrected copy of the transcript taken during the public meeting held in Chicago during December 7-8, 1999, concerning the Control of Release of Solid Materials at Licensed Facilities. As a representative of the Portland Cement Association (PCA), I was a participant of the meeting. I have corrected recording errors of my statements and made comments in the margins of the transcript to improve the readability of my statements.

I understand from the statement of Mr. Don Cool of the Nuclear Regulatory Commission (NRC) during the meeting, that the transcript will; (a) become part of the administrative record and (b) have the same standing as written comments received during the public comment period.

The PCA requests that the enclosed corrected transcript be entered in the administrative record as written comments on any proposed rule concerning Control of Release of Solid Materials at Licensed Facilities. Further that the verbal comments memorialized in the transcript be addressed in any response to comments concerning this issue written by NRC and published in Federal Register notices.

PCA is requesting that the corrected transcript in its entirety be entered into the administrative record as written comments. However, to assist NRC in its review of this letter's enclosure, PCA corrections and comments were made on the following page numbers of the enclosed transcript: 100, 115, 329, 330, 331, 332, 333, 334, 335, 338, 345, 378, 379 and 415.

PDR PR 20 64FR35090

DS10

This letter was mailed to NRC via express courier. This letter should be arrive at the NRC before the comment deadline. If this letter does not arrive at the NRC before the deadline, the PCA requests that NRC consider the comments as if they had arrived in time. We request this deference since the PCA; (a) participated in the public meetings, incurring expenses, (b) made statements that were incorrectly recorded by NRC, and (c) is a substantial stakeholder in these NRC decisions.

Please contact me at (847) 966-6200, if you have any questions concerning this letter.

Sincerely,

A handwritten signature in cursive script that reads "Charles M. Wilk". The signature is written in black ink and is positioned below the word "Sincerely,".

Charles M. Wilk  
Program Manager, Waste Management
