OFFICE  
RULE  
ADJUT

December, 22, 1999

Richard Meserve, Chairman  
Nuclear Regulatory Commission

DOCKET NUMBER  
PROPOSED RULE **PR 20**  
**(64FR35090)**

Dear Mr. Meserve:

Please consider the future health of your children and grandchildren as well as those of others before considering allowing the recycling and reuse of radioactive materials. I believe the money which may be saved initially, will be spent many times over for the health care of those adversely affected by YOUR decision.

Sir, do you want to meet your maker someday after being personally responsible for the suffering (and death) of others? Please reconsider this matter and do what is best for your own family - and mine and disallow the recycling of radioactive materials.

Thank You,

David Van Hoy
