OF
ADMINISTRATION

Dear Mr. Secretary:

Today we heard from a local organization of a proposal before the Nuclear Regulatory Commission to permit the recycling of radioactive waste into household items -- comments were to be sent in by December 22.

We have sent by e-mail the following communication to Chairman Meserve:

Dear Mr. Chairman:

The plan to recycle radioactive waste into household items is alarming, appalling, and incredible!

How can you treat cancer so lightly. It's a dreadful disease, and cancer rates are up.

The bottom line here is not money but the Nation's Health.

Don't carry out this terrible and irresponsible plan!

Sincerely,
