RE: "Scoping" of NRC Proposed rule for Radioactive "Release" and "Recycling" into the Marketplace, regular landfills, incinerators, etc.

Dear Chairman Meserve,  
I am sending you this electronic transmission in order to express my opinion on the above.

Please make note that I am requesting the following:

1. 100% prohibition on all radioactive releases in the United States and Internationally, NO EXCEPTIONS!
2. Concise and immediate reporting and recapture of already-released wastes and materials.
3. That you provide the public with at least eight more months to comment.

Thank you for the opportunity to make these comments.

Respectfully yours,
