Docket No. 50-397

U.S. Nuclear Regulatory Commission  
Attn: Document Control Desk  
Washington, DC 20555

Gentlemen:

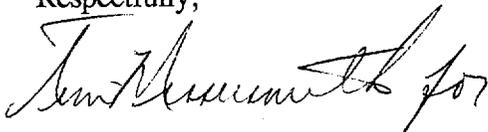

Subject: **WNP-2, OPERATING LICENSE NPF-21  
COMPLETION OF THERMO-LAG 330-1 FIRE BARRIER  
CORRECTIVE ACTIONS**

- References: 1) NRC Generic Letter 92-08, "Thermo-Lag 330-1 Fire Barriers," dated December 17, 1992
- 2) Letter dated February 17, 1999, SJ Collins (NRC) to JV Parrish (Energy Northwest), "Request for Change to Confirmatory Order Regarding Thermo-Lag 330-1 Fire Barriers for WNP-2 (TAC NO. MA4528)"

Reference 1 required Energy Northwest to confirm in writing when corrective actions that resolved deficiencies in Thermo-Lag fire barrier configurations were completed. Consistent with this requirement, we are informing the staff by this letter that Thermo-Lag fire barrier configuration corrective actions have been completed as of December 31, 1999. Completed corrective actions include physical plant modifications and work package closeout, thereby, ensuring compliance with the Reference 2 confirmatory order to our operating license.

Should you have any questions or desire additional information regarding this issue, please call me or Mr. PJ Inserra at (509) 377-4147.

Respectfully,

DW Coleman
