Dear Mr. Bradt:

We have reviewed the final New York Department of Labor regulations, "Ionizing Radiation Protection," Part 38 of Title 12 of the Official Compilation of Codes, Rules and Regulations of the State of New York (12 NYCRR Part 38), which became effective on April 15, 1999. The final regulations are in response to the 12 amendments identified in the enclosed Regulation Assessment Tracking System (RATS) Data Sheet. The regulations were reviewed by comparison to the equivalent NRC regulations in 10 CFR Parts 20, 30, 32, 34 and 36. We also discussed our review of the regulations with you on January 7, 2000.

As a result of the NRC review, we have determined that the New York Department of Labor regulations, as adopted, meet the compatibility and health and safety categories established in Office of State Programs Procedure SA-200.

We have also summarized on the RATS Data Sheet our knowledge of the status of other New York Department of Labor regulations. Please let us know if you note any inaccuracies or have any comments on the information contained in the RATS Data Sheet.

If you have any questions regarding the comments, the compatibility and health and safety categories, or any of the NRC regulations used in the review, please contact me or Duncan White at (610) 337-5042 or ADW@NRC.GOV.

Sincerely,
