Jack, I have revised this table with specific dates for the three items that have been implemented. The changes to the previous email are underlined.

Let me know if you have any questions.

Jack, the attached table is in Word. Let me know if you cannot access it and I will get it converted to WP here and re-send it. We may want to discuss if this is what you were looking for and if it is sufficient.

Subject: Implementation Dates Needed

Attached is a file of licensing actions issued by NRR for which the implementation-by-licensee dates is till a target date. Would you have the implementation dates in the attached file (a table) reviewed and an email returned with the correct implementation date?

I have no problem with your implementation date being far in the future, or being listed as refueling outage X or end of Yth ISI/IST 10-year interval.

I would still want the current best estimate of month/year listed also.

I am not expecting this back this week; maybe by 12/17th, definitely by 01/07/2000> We can discuss this at the next weekly phone call.

I could use the returned email as the response from the licensee that it has completed an implementation date.
