ISI (Inservice Inspection) Program Relief Request Withdrawal**

In accordance with 10 CFR 50.55a(a)(3), our prior submittal dated December 13, 1999, requested NRC review and approval of three proposed alternative requests (BV3-IWE1-2, Rev. 0; BV3-IWE1-3, Rev. 0; and BV3-IWL1-1, Rev. 0) applicable to the Ten-Year ISI Programs for BVPS Unit 1 and BVPS Unit 2. BV3-IWL1-1 requests relief from the minimum illumination and maximum distance requirements specified for visual examinations of concrete containments. However, based on discussions with your reviewer, this relief request should include additional details and will be revised and resubmitted.

In order to prevent a delay in processing the other two relief requests, the request to approve BV3-IWL1-1, Rev. 0 is hereby withdrawn. Revision 1 of BV3-IWL1-1 will be forwarded for NRC review and approval at a later date.

If you have any questions regarding this submittal, please contact Mr. Mark S. Ackerman, Manager, Licensing at 412-393-5203.

Sincerely,

  
Lew W. Myers
