MADISON, INDIANA 47250-5100

REPLY TO
ATTENTION OF

STEJP-CO (385-11m)

14 September 1995

MEMORANDUM THRU COL James Kriebel, Deputy Commander, U.S. Army
Test and Evaluation Command, Aberdeen Proving
Ground, Maryland 21005-5055

W. Kriebel 9/29/95

FOR Dr. Rateb Eid, U.S. Nuclear Regulatory Commission, Division
of Low Level Waste and Decommissioning, Office of Nuclear
Material Safety and Safeguards, Washington, D.C. 20555

SUBJECT: Transfer of Source Material License SUB-1435, Docket
number 040-008838

1. As discussed in previous briefings and correspondence,
Jefferson Proving Ground will cease to function as a test center
and will no longer have a staff on 30 September 1995. The
license must be transferred to Headquarters, U.S. Army Test and
Evaluation Command (TECOM) until the license is terminated.

2. The buildings and areas south of the firing line have been
decommissioned and all depleted uranium (DU) has been removed
from the area. All radioactive waste produced in the
decommissioning process has been disposed of at a licensed burial
site by the Army's radioactive waste manager, U.S. Army
Industrial Operations Command in Rock Island, Illinois. The
linear accelerator containing 50 kilograms of DU has been
transferred to U.S. Army Aberdeen Test Center (formerly U.S. Army
Combat System Test Activity). A Nuclear Regulatory Commission
(NRC) Form 314 annotating the transfer and disposal of material
is at Encl 1.

3. Request the license for the estimated 80,000 kilograms of DU
remaining in the impact area north of the firing line be
transferred to TECOM for storage only in accordance with Title
10, Code of Federal Regulations, Part 40, Section 46. An NRC
Form 313 containing the supporting documentation is at Encl 2.
