**Re: Salem Generating Station, Unit 1, Operating License No. DPR-70
Salem Generating Station, Unit 2, Operating License No. DPR-75
Hope Creek Generating Station, Unit 1, Operating License No. NPF-57
Proposed Transfer of Non-Operating Ownership Interests**

Gentlemen:

On December 20, 1999, Public Service Electric and Gas Company ("PSE&G"), PSEG Nuclear LLC ("PSEG Nuclear"), Atlantic City Electric Company ("ACE"), and Delmarva Power and Light Company ("DP&L") requested Nuclear Regulatory Commission ("NRC") consent to the transfer of the minority, non-operating ownership interests of ACE and DP&L in the Salem Generating Station, Units 1 and 2, and the Hope Creek Generating Station, to PSEG Nuclear. The application, made in accordance with 10 C.F.R. § 50.80, also included a request pursuant to 10 C.F.R. §§ 50.90 - 50.92 for appropriate conforming license amendments.

The purpose of this letter is to provide the NRC with a correction regarding the PSE&G current ownership percentage of the Salem Generating Station referenced in the December 20th application. Specifically, footnote 1 in the cover letter should have stated that PSE&G owns 42.59% of the Salem Generating Station, not 42.49% as indicated. The change makes the footnote consistent with similar statements in the rest of that document.

PSE&G has concluded that the information contained in this letter does not alter the conclusions reached in the 10CFR50.92 No Significant Hazards analysis previously submitted with the original License Change Requests (LCR H99-13 & S99-23).
