Secretary, U. S. Nuclear Regulatory Commission  
Washington, D. C. 20555  
Attention: Rulemaking and Adjudications Staff

Dear Secretary:

I am shocked to learn that the NRC is proposing to dispose of radioactive waste by recycling it into consumer products.

It's sad to realize that the Nuclear Regulatory Commission, presumably created, at least in part, to protect us from radioactivity, now plans to expose millions of consumers, including children who wear braces, to deadly radioactivity. One child death among millions is still too many. NO DOSE IS ACCEPTABLE.

It is time for the NRC TO DEFY THE NUCLEAR INDUSTRY and take up its duty to PROTECT people.

Sincerely yours,

*Jean Christie*
