MEMORANDUM TO: Wayne D. Lanning, Director  
Division of Reactor Safety, Region I

Charles A. Casto, Director  
Division of Reactor Safety, Region II

John A. Grobe, Director  
Division of Reactor Safety, Region III

Arthur T. Howell, Director  
Division of Reactor Safety, Region IV

FROM: Bruce A. Boger, Director */RA/*  
Division of Inspection Program Management  
Office of Nuclear Reactor Regulation

SUBJECT: SUPPLEMENTARY CHANGES TO REVISION 8 OF  
NUREG-1021, "OPERATOR LICENSING EXAMINATION  
STANDARDS FOR POWER REACTORS"

Thank you for your comments and recommendations in response to my memorandum of November 24, 1999, which forwarded several draft changes to Revision 8 of NUREG-1021. Most significant among these changes is the implementation of measures to assure that examination topics will be selected in a truly random manner and, based upon that enhanced question selection process, the elimination of limits on the repetition of questions from recent NRC and licensee examinations.

We have considered your comments and recommendations, developed a proposed change package for public comment, and, through concurrence in this memorandum, obtained Office of Nuclear Reactor Regulation (NRR) management approval to implement the changes on a voluntary, trial basis during a 90-day public comment period. We will be issuing a *Federal Register* Notice to formally announce the proposed changes and solicit public comments. We also plan to post the changes on the NRC's Operator Licensing Website. The changes will be finalized by publishing a supplement to Revision 8 of NUREG-1021 upon review and resolution of the public comments and incorporation of any lessons learned during the trial period.

The changes in the attached Examination Standards (ES) and Appendices from NUREG-1021 are identified with redline and strikeout text for ease of review by the public. The final change package will be formatted so that the affected pages in Revision 8 can simply be removed and replaced, with the changes identified by vertical lines in the margins adjacent to the affected text.

If you have any questions, please feel free to call David Trimble on 301-415-2942.
