

18.10 Training Program Development

WCAP-14655, "Designer's Input to the Training of the Human Factors Engineering Verification and Validation Personnel" (Reference 1), describes the design and implementation of the training program for the training of the operations personnel who participate as subjects in the Human Factors Engineering (HFE) Verification and Validation. This WCAP is provided as input for the Combined Licensed applicant. The WCAP also describes the process used to develop the specification of the role of the operator for AP600 and how this role and training insights can be passed from the designer to the Combined License applicant.

18.10.1 Combined License Information

See Section 13.2 for a discussion of the responsibility for training program development.
