Dear Ms. Svolos:

I am responding to the question that you asked of Dr. Brian Sheron of the U.S. Nuclear Regulatory Commission during the public meeting at Indian Point Unit 2 on March 1, 2000. I understand that you raised concerns regarding increased instances of cancer around the Indian Point site and wanted to know who was charged with investigating your concerns. I contacted the State of New York, and they have informed me that your concerns regarding increased instances of cancer should be reported to the New York State Department of Health, Bureau of Chronic Disease and Epidemiology. The specific point of contact I was given is Ms. Aura Weinstein who can be reached at (518) 474-2354, and I would recommend you contact her with your concerns.

Thank you for participating in our public meeting and for bringing your concerns to our attention. If you have any other questions, please do not hesitate to contact me at (301) 415-1421.

Sincerely,

/RA/
