Subject: Recycled Radioactive Waste

'00 MAR 15 P1:09

To Whom It May Concern:

We have just read our Spring 2000 issue of NRDC's The Amicus Journal, and learned that the NRC is trying to establish standards that would set allowable radiation levels for recycled radioactive waste.

We are writing to let you know that we are opposed to the use of any radioactive waste in consumer products or medical devices. The NRC should not put the public's health at risk, and should reconsider this course of action.

Sincerely,
Wendy L. Gonick
Jeff DiPerna
