Subject: Review of Standard Review Plan (SRP) NUREG 1718

Dear Mr. Persinko:

The Office of Fissile Materials in the Department of Energy requests a two week extension to March 27 to complete its review of the SRP NUREG-1718 for the MOX Fuel Fabrication Facility. Since the document is longer than expected, the extra time is needed to ensure a thorough and coordinated DOE review.

Thank you in advance for your cooperation in this matter. If you have any questions, please do not hesitate to contact me at 202-586-5960.

Sincerely,

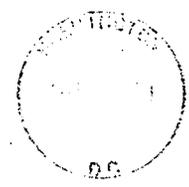

A handwritten signature in cursive script that reads "James V. Johnson".

James V. Johnson
Technical Manager
MOX Fuel Fabrication Services
