OFFICE OF THE  
TRIP  
ADJUTANT GENERAL

TO: Nuclear Regulatory Commission

FROM: Rosebud Sioux Tribe

RE: Advance Notification to Native American Tribes of Transportation  
of certain types of Nuclear Wastes

The idea of advance notification is the way to go, however, the route selection within the Rosebud Reservation must be a joint effort by the NRC and the Tribal Water Resources and Environmental office. The tribe may be concerned if the route is through a densely populated town or area and if it overlies some of the shallow aquifers that provide the drinking water to the population served.

We appreciate the opportunity to comment.
