NRC STAFF TO HOLD PERFORMANCE EVALUATION MEETING AT FITZPATRICK

NOTE TO EDITORS:

The Nuclear Regulatory Commission staff will hold a public meeting with representatives of the James A. FitzPatrick nuclear power plant on Thursday, June 3, to discuss the results of the agency's latest Plant Performance Review for the facility. The New York Power Authority operates the plant, which is located in Scriba, N.Y.

Results of the review are contained in NRC news release I-99-34, which was issued on April 13. That press release can be found on the agency's Internet web site at: www.nrc.gov

The meeting will begin at 1 p.m. in the auditorium of the plant's training center. At the conclusion, NRC staff will be available to answer questions from interested observers and to meet with state and local officials.
