Nuclear Regulatory Commission staff will meet with representatives of the Pilgrim nuclear power plant on Tuesday, August 31, to discuss the results of the agency's latest Plant Performance Review for the facility. Entergy Nuclear, a subsidiary of New Orleans-based Entergy Corp., operates the plant, which is located in Plymouth, Mass.

Results of the review are contained in NRC news release I-99-38, which was issued on April 13. That press release can be found on the agency's web site at:

The meeting will begin at 2 p.m. in the Winslow Room at the John Carver Inn, 25 Summer Street, Plymouth. The meeting will be open to the public for observation. At its conclusion, NRC staff will be available to answer questions from interested observers and to meet with state and local officials.
