FOI/WPA REQUEST

Case No: 98-162
Date Recd: 4-20-98
Action Off: Pool
Related Cases: _____

Anne T. Boland
Director, Office of Enforcement
U.S. Nuclear Regulatory Commission
Region II
Suite 23-T-85
61 Forsyth St. SW
Atlanta, GA 30303

Dear Ms. Boland:

This is a request under the Freedom of Information Act for the full report pertaining to investigation 2-95-034/RII-95-A-0200. I understand that a synopsis of the report will be filed in the public document room soon. I am faxing this request in hopes of receiving the full report at the same time that the synopsis becomes available, if not earlier. Getting them both at once could prevent me from having to write two articles.

In addition, I'd like to make a FOIA request for supporting documents for the full report in the above-captioned case: briefs filed by FPL, by the NRC, by anyone else, as well as letters and memos. I'm not sure what else might be in the file, so I'm trying to make the request as broad as possible so as not to overlook anything. If I've missed anything, though, don't hesitate to add it to my request. At the same time, if there's a huge technical document in there that would be a problem to copy, let me know, because I might not need something like that. I'm interested in the materials that will help me understand the main aspects of the case, but not necessarily down to every last engineering detail.

I can be reached at john_murawski@pbpost.com or at 561-820-4789.

Thanking you in advance for your assistance, I am

Sincerely yours,

John Murawski
