NRC SETS NEW DATE FOR MEETING ON IP2 INSPECTION;
NOW SCHEDULED FOR SEPTEMBER 27

The Nuclear Regulatory Commission has rescheduled a meeting to discuss the results of a review performed by a team of NRC specialists at the Indian Point 2 nuclear power plant in Buchanan, N.Y.

The Augmented Inspection Team exit meeting now will be held on Monday, September 27, at 7:00 p.m., in the Visitor's Center Auditorium at the Indian Point site, at Broadway and Bleakley Avenue. The meeting had been set for September 23. It is being rescheduled because of a conflict with a previously scheduled New York Public Service Commission hearing in Peekskill.

The meeting is open to the public for observation only.
