Docket No. 030-29521  
Control No. 127838

Dear Ms. Beardsley,

This correspondence is to provide the additional information that you requested in your letter of 3-21-00, as per your item numbers:

- 1.a. Dr. Denenberg has a schedule that includes visits to all sites on a regular basis. He also has a pager and a cell phone for emergency contact. We also have a quarterly service from Walter L. Robinson & Associates that provides for additional support on site and through telecommunications.
- 1.b. Dr. Denenberg is contacted directly by landline phone. If he is inaccessible, he is paged or called on his cell phone. In the event he is unable to be contacted quickly, we call Walter L. Robinson & Associates, our consultant radiation health physicists.
2. Our requested location of use was not purchased from another licensee. It is totally new construction.
3. Due to scheduling conflicts, we are unable to quickly obtain the requested information from Cedar-Sinai Medical Center in reference to Dr. Germano. Therefore, please delete our request to add Dr. Parikh to our NRC license at this time. We will request a separate amendment regarding this matter in the very near future.
