SUBJECT: Limerick Generating Station (LGS), Units 1 and 2
Notification of Change in Operator Status

Gentlemen:

This letter provides formal notification in accordance with 10CFR50.74; Notification of change in operator status. 10CFR50.74 specifies that "Each licensee shall notify the Commission in accordance with 50.4 within 30 days of the following in regard to a licensed operator or senior operator; 50.74(a) Permanent reassignment from the position for which the licensee has certified the need for a licensed operator or senior operator under 55.31(a)(3)".

The following operators have been permanently reassigned to duties that do not require maintaining licensed operator status. It has been determined that these operators will not be reassigned to licensed operator duties.

<u>Name</u>	<u>Docket No.</u>	<u>License No.</u>	<u>Type</u>
Steven P. Breeding	55-61974	SOP-11270	SRO
Joseph R. Coyle	55-60248	SOP-10991-1	SRO

Mr. Breeding is an LGS engineering manager whose engineering responsibilities have now consumed more of his time. Mr. Coyle is now serving in the LGS Operations department and has assumed other duties which do not require an operator's license.

As a result, these licenses will no longer necessary as originally certified under 10CFR55.31(a)(3).

Thank you for you attention to this matter.

Very truly yours,
