RE: Docket No. 50-62

Dear Mr. Marsh:

I am submitting the following comment regarding the proposed action to decommission the University of Virginia's reactor (Facility license No. R-66) located in Charlottesville, Virginia:

I have reviewed the decommissioning and environmental monitoring plans for the decommissioning of the University of Virginia reactor. The proposed decommissioning plan appears to adequately ensure the return of the facility to unrestricted use without adversely affecting the public health and safety.

Thank you for the opportunity to comment on this licensing action.

Sincerely yours,

Leslie P. Foldesi, M.S., CHP
Director, Radiological Health
