

April 6, 2000

Mr. Gerald R. Rainey  
AmerGen Energy Company, LLC  
965 Chesterbrook Blvd.  
Wayne, PA 19087-5691

SUBJECT: CLINTON POWER STATION - NOTICE OF CONSIDERATION OF APPROVAL  
OF TRANSFER OF FACILITY OPERATING LICENSE AND CONFORMING  
AMENDMENT AND OPPORTUNITY FOR A HEARING (TAC NO. MA8345)

Dear Mr. Rainey :

Enclosed is a copy of a "Notice of Consideration of Approval of Transfer of Facility Operating Licenses and Conforming Amendments and Opportunity for a Hearing" related to the application dated February 28, 2000, from AmerGen Energy Company, LLC (AmerGen), and AmerGen, Vermont, LLC. This application, in part, seeks approval under 10 CFR 50.80 of the transfer of Facility Operating License No. NPF-62 for Clinton Power Station. The licensee transfer would occur in connection with the proposed transfer of PECO Energy Company's existing interest in AmerGen to a new generation company, presently referred to as GENCO. GENCO is to be a subsidiary of a new holding company, Exelon Corporation, which will be formed as a result of a proposed merger of Unicom Corporation and PECO Energy Company. The application also seeks approval of a conforming amendment, pursuant to 10 CFR 50.90, to reflect the transfer.

This notice is being forwarded to the Office of the Federal Register for publication.

Sincerely,

**/RA/**

OFFICIAL RECORD COPY

UNITED STATES NUCLEAR REGULATORY COMMISSIONAMERGEN ENERGY COMPANY, LLCCLINTON POWER STATIONDOCKET NO. 50-461

NOTICE OF CONSIDERATION OF APPROVAL OF TRANSFER OF  
FACILITY OPERATING LICENSE AND CONFORMING AMENDMENT  
AND OPPORTUNITY FOR A HEARING

The U.S. Nuclear Regulatory Commission (the Commission) is considering the issuance of an order under 10 CFR 50.80 approving the transfer of Facility Operating License No. NPF-62 for Clinton Power Station, held by AmerGen Energy Company, LLC (AmerGen), as the owner and licensed operator. The transfer would result from the acquisition of PECO Energy Company's existing interest in AmerGen by a new generation company. This company, presently referred to in the subject application described below as GENCO, is to be a subsidiary of a new holding company Exelon Corporation formed from the proposed merger between PECO Energy Company (PECO) and Unicom Corporation (Unicom). The Commission is also considering amending the license for administrative purposes to reflect the proposed transfer. The facility is located in DeWitt County, Illinois.

According to an application for approval filed by AmerGen, AmerGen is a limited liability company formed to acquire and operate nuclear power plants in the United States. British Energy, Inc. and PECO each own 50% of AmerGen. Following completion of the merger between Unicom and PECO, GENCO will acquire PECO's existing 50% ownership interest in AmerGen. AmerGen, as owned by GENCO and British Energy, Inc. will continue to be responsible for the operation, maintenance, and eventual decommissioning of Clinton Power Station. No physical changes to the facility or operational changes are being proposed in the application.

The proposed amendment to the operating license would add language to the license transfer conditions that were incorporated into the Clinton Operating License upon the initial transfer of the license to AmerGen, to reflect the transfer of PECO's ownership interest in AmerGen to a new entity.

Pursuant to 10 CFR 50.80, no license, or any right thereunder, shall be transferred, directly or indirectly, through transfer of control of the license, unless the Commission shall give its consent in writing. The Commission will approve an application for the transfer of a license if the Commission determines that the proposed transferee is qualified to hold the license, and that the transfer is otherwise consistent with applicable provisions of law, regulations, and orders issued by the Commission pursuant thereto.

Before issuance of the proposed conforming license amendments, the Commission will have made findings required by the Atomic Energy Act of 1954, as amended (the Act), and the Commission's regulations.

As provided in 10 CFR 2.1315, unless otherwise determined by the Commission with regard to a specific application, the Commission has determined that any amendment to the license of a utilization facility which does no more than conform the license to reflect the transfer action involves no significant hazards consideration. No contrary determination has been made with respect to this specific license amendment application. In light of the generic determination reflected in 10 CFR 2.1315, no public comments with respect to significant hazards considerations are being solicited, notwithstanding the general comment procedures contained in 10 CFR 50.91.

The filing of requests for hearing and petitions for leave to intervene, and written comments with regard to the license transfer application, are discussed below.

By May 1, 2000, any person whose interest may be affected by the Commission's action on the application may request a hearing and, if not, the

applicant may petition for leave to intervene in a hearing proceeding on the Commission's action. Requests for a hearing and petitions for leave to intervene should be filed in accordance with the Commission's rules of practice set forth in Subpart M, "Public Notification, Availability of Documents and Records, Hearing Requests and Procedures for Hearings on License Transfer Applications," of 10 CFR Part 2. In particular, such requests and petitions must comply with the requirements set forth in 10 CFR 2.1306, and should address the considerations contained in 10 CFR 2.1308(a). Untimely requests and petitions may be denied, as provided in 10 CFR 2.1308(b), unless good cause for failure to file on time is established. In addition, an untimely request or petition should address the factors that the Commission will also consider, in reviewing untimely requests or petitions, set forth in 10 CFR 2.1308(b)(1)-(2).

Requests for a hearing and petitions for leave to intervene should be served upon: Mr. Kevin P. Gallen, Esq., Morgan, Lewis & Bockius LLP, 1800 M Street, N. W., Washington, D.C. 20036-5869; the General Counsel, U.S. Nuclear Regulatory Commission, Washington, DC 20555 (e-mail address for filings regarding license transfer cases only: OGCLT@NRC.gov); and the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, Attention: Rulemakings and Adjudications Staff, in accordance with 10 CFR 2.1313.

The Commission will issue a notice or order granting or denying a hearing request or intervention petition, designating the issues for any hearing that will be held and designating the Presiding Officer. A notice granting a hearing will be published in the FEDERAL REGISTER and served on the parties to the hearing.

As an alternative to requests for hearing and petitions to intervene, by May 11, 2000, persons may submit written comments regarding the license transfer application, as provided for in 10 CFR 2.1305. The Commission will consider and, if appropriate, respond to these comments, but such comments will not otherwise constitute part of the decisional record. Comments should be submitted to the Secretary, U.S. Nuclear Regulatory Commission,

Washington, DC 20555-0001, Attention: Rulemakings and Adjudications Staff, and should cite the publication date and page number of this FEDERAL REGISTER notice.

For further details with respect to this action, see the application dated February 28, 2000, available for public inspection at the Commission's Public Document Room, the Gelman Building, 2120 L Street, NW., Washington, DC, and accessible electronically through the ADAMS Public Electronic Reading Room link at the NRC Web site (<http://www.nrc.gov>).

Dated at Rockville, Maryland this 6th day of April 2000.
