Gentlemen:

In letters dated March 10, 2000 and March 28, 2000, ABB C-E Nuclear Power, Inc. requested NRC approvals for transfers to a subsidiary of British Nuclear Fuels plc ("BNFL") of Materials License SNM-33, and export licenses, certificates of compliance and QA approvals in connection with the acquisition of ABB's nuclear business by BNFL. The name that the transferee company will have as of the closing of the transaction was not known when the letters were submitted. The transferee company described in the letters was organized as a Delaware limited liability company on March 10, 2000 and is currently named WAC LLC. I have recently been informed that the name of the transferee will be changed as of the closing date to C-E Nuclear Power LLC. Would you please use the new name, C-E Nuclear Power LLC, in your review of our applications.

Very truly yours,

ABB C-E Nuclear Power, Inc.

Robert S. Bell, Jr.
