

## DAILY STAFF NOTES

### OFFICE OF NUCLEAR MATERIAL SAFETY AND SAFEGUARDS

#### Direct Final Rule Signed by EDO

On May 25, 2000, the Executive Director for Operations approved a direct final rule that amends 10 CFR 72.214, "List of approved spent fuel storage casks" revising the Transnuclear West, Inc., Standardized NUHOMS<sup>®</sup>-24P and NUHOMS<sup>®</sup>-52B cask system listing within the "List of approved spent fuel storage casks." This amendment updates the Technical Specifications' fuel qualification tables to reflect additional fuel parameters and it allows storage of burnable poison rod assemblies in NUHOMS<sup>®</sup> model -24P, along with the spent fuel. It also revises and renumbers several of the conditions in the Certificate of Compliance (CoC) to reflect the NRC's new standard format for CoCs.

This notice informs the Commission that, in accordance with the rulemaking authority delegated to the EDO, the EDO has signed this direct final rule and proposes to forward it on June 7, 2000 to the Office of the Federal Register for publication, unless otherwise directed by the Commission.
