

April 12, 2000

Mr. Gerald R. Rainey
AmerGen Energy Company, LLC
965 Chesterbrook Blvd
Wayne, Pennsylvania 19087

SUBJECT: THREE MILE ISLAND, UNIT 1 AND CLINTON POWER STATION - REQUEST
FOR ADDITIONAL INFORMATION (TAC NOS. MA8359 AND MA8345)

Dear Mr. Rainey:

By letter dated February 28, 2000, AmerGen Energy Company (AmerGen, the licensee) requested the consent of the NRC to transfer control of the operating licenses held by AmerGen that will result from the proposed merger between PECO Energy Company and Unicom Corporation.

The Standard Review Plan, Chapter 13, "Conduct of Operations," Section 13.1.1, "Management and Technical Support Organization," requires an evaluation to ensure that the corporate management is involved with, informed of, and dedicated to, the safe operation and maintenance of the nuclear plant. Additionally, the evaluation ensures that sufficient technical resources have been, are being, and will continue to be, provided to adequately accomplish these objectives. In order to complete the evaluation of the transfer of control of AmerGen and AmerGen Vermont licenses, information as discussed in the attached Request for Additional Information is needed.

If there should be any questions regarding this request, please contact me at (301) 415-1322.

Sincerely,

/RA/

Donna M. Skay, Project Manager, Section 2
Project Directorate III
Division of Licensing Project Management
Office of Nuclear Reactor Regulation

Docket Nos. 50-289 and 50-461

Enclosure: RAI

cc w/encl: See next page

REQUEST FOR ADDITIONAL INFORMATION

1. Provide an organization chart for AmerGen and AmerGen Vermont showing lines of authority, lines of responsibility, lines of communications and the organizational structure from the senior executive at each AmerGen and AmerGen Vermont nuclear facility to the GENCO Nuclear Group (NG) Chief Nuclear Officer (CNO).
2. Provide resumes or position descriptions of those individuals identified as filling management positions in the proposed corporate structure.
3. Describe the specific provisions which have been made to provide the “various support and oversight functions previously provided to AmerGen [and AmerGen Vermont] by the PECO nuclear organization...” In the description, describe the process by which AmerGen and AmerGen Vermont nuclear facilities will obtain the technical support necessary for operation and maintenance and describe the extent to which AmerGen and AmerGen Vermont facilities will rely on GENCO NG for routine technical services and support.
