PERSON(S) CONTACTED: Ed Kessler
ORGANIZATION: Science & Technology Research (new license)
TELEPHONE NO.: 540 663-9101

SUBJECT: Application for New License to Manufacture and Distribute Chemical Detectors
---

SUMMARY: Called to ask if he had submitted a SS&D application for the Ship ACADA, a chemical agent detector containing 100 uCi of Am-241. He said that they had not applied for approval of the device per the SS&D program. I gave him the references on the internet for guidance on the SS&D process and the number to Doug Broaddus, NMSS. I told him we could not proceed with his manufacturing and distribution license until he received approval of the device. He said he would pursue approval of the device.

ACTION REQUIRED: Await additional information and supporting documentation.
