Subject: Final NRC SER on Revision 1 of the WOG ERGs

Case No: 2000-0202
Date Rec'd: 4-11-00
Action Off: [Signature]
Related Case: _____

Pursuant to the Freedom of Information Act, and the implementing regulations in 10 CFR, I am requesting whether the NRC issued a final safety evaluation related to the Westinghouse Owners Group (WOG) Emergency Response Guidelines (ERGs) Revision 1. The letter from Thomas M. Novak to D. Butterfield, Chairman WOG, dated December 26, 1985, discusses the BASIC version (Revision 0) of the WOG ERGs and, on page 2 of the Supplemental Safety Evaluation attached to that letter, indicates preliminary approval of Revision 1 was provided on December 27, 1984 (Reference 6).

I have been unable to find in the Public Document Room's BRS any indication that a final approval letter was issued. Confirmation of whether one was issued or not, and, if so, a copy thereof, is requested.

The 12/27/84 letter could not be found either but it isn't the one of interest in any event, since it was a preliminary review. The letter discussing the final review (issued some time after 12/26/85) is the letter of interest.

Respectively,

Nancy Chapman
