NUCLEAR REGULATORY COMMISSIONERS TO ACT ON FINAL RULE FOR LICENSE RENEWAL

The Nuclear Regulatory Commission said today that the final rule on nuclear power plant license renewal will be submitted to the Commissioners for approval.

On June 28, 1991, the Commission delegated authority to its Executive Director for Operations to issue the final rule, and directed what the rule should contain. In view of the importance of this matter, the Commission has reconsidered and decided to act on the final rule itself.
