

No. 91-10

NOTE TO EDITORS:

FOR IMMEDIATE RELEASE
(Friday, January 25, 1991)

Attached is the "Introduction" section from a final two-volume report of NUREG-1150, the "Reactor Accident Investigation and Assessment for Five U.S. Nuclear Power Plants," a major project which has received review by the American Nuclear Society and a special white-maned advisory committee of national and international nuclear experts will serve as a significant source of technical information to support NRC policies and regulations related to severe accidents. Copies of the report will be available for purchase from the Superintendent of Documents, U.S. Government Printing Office, P.O. Box 37082, Washington, D.C. 20513-7082, and the National Technical Information Service, Springfield, VA 22161.
