FOR IMMEDIATE RELEASE
(Monday, May 11, 1992)

NOTE TO EDITORS;

The Nuclear Regulatory Commission has received two letter-type reports from its Advisory Committee on Nuclear Waste (ACNW). The reports provide comments on a comprehensive systems analysis of the high-level radioactive waste management and disposal program and a program plan for the ACNW.

In addition, the NRC's Executive Director for Operations has received a letter report on the NRC's high-level radioactive waste research program plan (Draft NUREG-1406).
