Tel. 301/504-2240

FOR IMMEDIATE RELEASE
(Friday, February 21, 1992)

NOTE TO EDITORS;

The Nuclear Regulatory Commission has received three letter-type reports from its independent Advisory Committee on Reactor Safeguards. The attached letter reports provide comments on:

- 1) use of design acceptance criteria during Part 52 design certification reviews;
- 2) trends in core-melt probability; and
- 3) proposed revisions to reactor site regulations that deal with seismology, geology and earthquake engineering.
