**Subject:** Part O

Tom:

Ken Weaver called me and pointed out a typo that was left in Part O.10.a. It had read "Part D of these regulations". It should state instead "O.9a". I have already made this correction, and the published version (after concurrence) will have this correction included. NRC will receive a copy of the revised Part O as published once concurrence is received. Thanks for your attention to this important matter, and we look forward to hearing from you soon re: concurrence.
