FOR IMMEDIATE RELEASE
(Monday, April 13, 1992)

NOTE TO EDITORS:

Attached is a corrected list of over 40 nuclear materials sites covered by an Action Plan announced by the Nuclear Regulatory Commission on April 8. The Action Plan will help ensure that the sites, which are contaminated with radioactive materials, are cleaned up in a timely manner.

The corrected list shows the same companies as announced previously, but locations have been revised in some instances.
