NRC'S 20TH WATER REACTOR SAFETY INFORMATION
MEETING SCHEDULED OCTOBER 21-23

The Nuclear Regulatory Commission's 20th Water Reactor Safety Information meeting has been scheduled for October 21-23 at the Pooks Hill Marriott Hotel in Bethesda, MD.

Representatives from government, industry, universities, public interest research groups and foreign countries have been invited to attend the meeting at 5151 Pooks Hill Road.

Technical papers on the results of industry-sponsored safety research as well as safety research being conducted in foreign countries will be presented as follows:

October 21--severe accident research; primary system integrity; advanced reactor research; and thermal hydraulics.

October 22--severe accident research; advanced light-water reactors; human factors research; advanced instrumentation and control hardware; and advanced control system technology.

October 23--aging research developments; advanced light-water reactors; earth sciences; probabilistic risk assessment; structural engineering; and Electric Power Research Institute's nuclear safety research and development.

Additional information regarding the meeting may be obtained by contacting Allen J. Weiss, 516/282-4473, or Al Burda, NRC's Office of Nuclear Regulatory Research, 301/492-3714.
