

No. 93-181  
Tel. 301/504-2240

FOR IMMEDIATE RELEASE  
(Thursday, December 9, 1993)

NOTE TO EDITORS:

The Nuclear Regulatory Commission has received five letter-type reports from its independent Advisory Committee on Reactor Safeguards. The letter reports provide comments on:

1) a draft Commission paper on policy and technical issues associated with the regulatory treatment of non-safety systems for the Westinghouse AP600 design and the General Electric simplified boiling water reactor design;

2) issuance of a draft preapplication safety evaluation report for the PRISM liquid-metal-cooled reactor design;

3) a draft final report of a probabilistic risk assessment working group;

4) the NRC confirmatory test program in support of design certification of the Westinghouse AP600 plant; and

5) computers in nuclear power plant operations.
