A grayscale image showing a jagged, dark crack on a light gray, textured background. The crack starts from the top left and extends towards the center right.

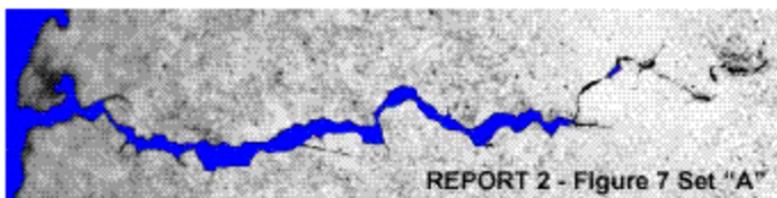

REPORT 1 - Figure 7 Set "B"

A grayscale image showing a jagged, dark crack on a light gray, textured background. The crack starts from the top left and extends towards the center right, similar to the first image but with a different texture.

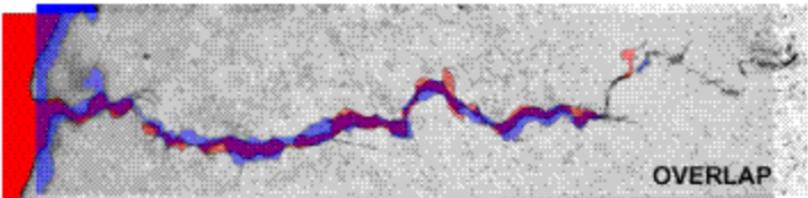

REPORT 2 - Figure 7 Set "A"

A grayscale image of the crack from Report 1, with the crack area highlighted in red. The background is gray.

REPORT 1 - Figure 7 Set "B"

A grayscale image of the crack from Report 2, with the crack area highlighted in blue. The background is gray.

REPORT 2 - Figure 7 Set "A"

A grayscale image showing the overlap of the red and blue masks from the previous two images. The overlapping areas are purple, while the non-overlapping areas are red or blue.
