REVISION TO TECHNICAL SPECIFICATION 6.2.2.e - OPERATIONS MANAGEMENT
LICENSE REQUIREMENTS

Dear Sir or Madam:

By letter dated August 2, 1999, Carolina Power & Light Company (CP&L) requested a revision to Technical Specification (TS) 6.2.2.e concerning Operations management license requirements for the Harris Nuclear Plant. Based on discussions with Nuclear Regulatory Commission staff, CP&L is hereby modifying our requested revision to allow three options for the Operations Manager license requirements. This change provides greater consistency with ANSI/ANS-3.1-1993, "Selection, Qualification, and Training of Personnel for Nuclear Power Plants". The proposed Technical Specification page, revised per our discussions, is enclosed.

This change does not affect the conclusions of either the 10 CFR 50.92 evaluation or the Environmental Considerations previously submitted.

Please refer any questions regarding this submittal to Mr. J. H. Eads at (919) 362-2646.

Sincerely,

ONW/onw
