Millstone Nuclear Power Station, Unit Nos. 1, 2, and 3  
Emergency Exercise Scenario Package

The purpose of this letter is for Northeast Nuclear Energy Company (NNECO) to provide, for NRC review, the scenario package for the annual Emergency Preparedness Exercise at the Millstone Nuclear Power Station on March 15, 2000. We respectfully request any comments by January 31, 2000, so that they may be incorporated into the scenario package. Final scenario packages will be provided to the NRC Inspection Team at the entrance meeting.

The content of the exercise scenarios should be handled on a "need-to-know" basis such that individuals who may be exercise players do not have access to the scenario to be used. Therefore, only a limited distribution of the attached Exercise Scenario is planned within the Millstone station and corporate organizations. We request that you withhold Attachment 1, which contains the exercise scenario, from the Public Document Room until completion of the exercise.

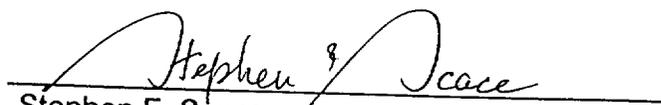

There are no commitments contained within this letter.
