NRC'S ADVISORY COMMITTEE ON NUCLEAR WASTE  
TO MEET JANUARY 18-19

The Nuclear Regulatory Commission's Advisory Committee on Nuclear Waste (ACNW) has scheduled a technical meeting January 18-19 in Rockville, Maryland.

The meeting, which is open to the public, will begin at 8:30 a.m. each day in Room T-2B3, 11545 Rockville Pike.

Although meetings of the ACNW are open to the public, they are not part of the NRC's public hearing process. The ACNW was established by the Commission in March 1988 to advise it on all aspects of nuclear waste management. While members of the public may attend the meeting, the committee will consider only oral or written statements limited to specific matters set forth in a Notice of meeting published in the Federal Register on January 5.

Discussions with representatives of the NRC staff at the meeting will include:

- a nuclear waste container materials research program;
- the history of groundwater travel time;
- current waste management issues;
- the application of probabilistic risk assessment policy to radioactive waste disposal issues; and
- future ACNW activities.

Persons wishing to submit a statement regarding an agenda subject may do so by providing a readily reproducible copy to the committee at the beginning of the meeting or by mailing it to the Executive Director, Advisory Committee on Nuclear Waste, Nuclear Regulatory Commission, Washington, D.C. 20555.

(ACNW schedules are subject to change. Anyone planning to attend should confirm the schedule the day before the meeting by calling 301/415-7360.)
