NRC'S ADVISORY COMMITTEE ON NUCLEAR WASTE
TO MEET SEPTEMBER 21-22 IN ROCKVILLE, MD.

The Nuclear Regulatory Commission's Advisory Committee on Nuclear Waste (ACNW) has scheduled a technical meeting September 21-22 in Rockville, Maryland.

The meeting, which is open to the public, will begin at 8:30 a.m. each day in Room T2B3, Two White Flint North, 11545 Rockville Pike.

(ACNW schedules are subject to change. Anyone planning to attend should confirm the schedule the day before the meeting by calling 301/415-7360.)

Although meetings of the ACNW are open to the public, they are not part of the NRC's public hearing process. The ACNW was established by the Commission in March 1988 to advise it on all aspects of nuclear waste management. While members of the public may attend the meeting, the committee will consider only oral or written statements limited to specific matters set forth in a Notice of Meeting published in the Federal Register September 1.

Discussions at the meeting will include:

--a proposed program approach to site characterization at Yucca Mountain in Nevada;

--status of substantially complete containment for a high-level waste geologic repository;

--proposed rule for land ownership of low-level waste disposal facilities;

--future ACNW activities; and

--the preparation of ACNW reports.

Persons wishing to submit a statement regarding the agenda may do so by providing a readily reproducible copy to the

committee at the beginning of the meeting or by mailing it to the Executive Director, Advisory Committee on Nuclear Waste, Nuclear Regulatory Commission, Washington, D.C. 20555.
