April 10, 2000

Frederick C. Combs, Deputy Director  
Office of State Programs  
US Nuclear Regulatory Commission  
Washington, D.C. 20555-0001

Dear Mr. Combs:

The Division of Radiation Control (DRC) has received your letter, dated March 29, 2000, concerning review of the proposed changes to the Utah Radiation Control Rules. I appreciate this review and I understand you have no comments. Please be advised that the proposed rules were adopted and made effective on March 10, 2000. A copy of the "as published" rules is provided for your review. I have also provided a copy in a computer readable format.

You also summarized on the RATS Data Sheet your knowledge of the status of other Utah rules. A question regarding the summary data was part of the discussion during the periodic meeting between IMPEP reviews. We recently held this meeting on March 28, 2000. To resolve some questions, Mr. Craig Jones provided a copy of a September 1998 letter which transmitted to NRC a number of final rulemaking actions. I ask that the 1998 submission and the material provided herein be added to the RATS Data Sheet. After these rules are entered into your system, I would like another opportunity to review the data.

If you have questions about the enclosed rules, please contact me at (801) 536-4250.

Sincerely,

A handwritten signature in black ink, appearing to read "William J. Sinclair", is written over a horizontal line.

William J. Sinclair, Director  
Division of Radiation Control

Enclosures: as stated
