NRC'S 21ST WATER REACTOR SAFETY INFORMATION
MEETING SCHEDULED OCTOBER 25-27

The Nuclear Regulatory Commission's 21st Water Reactor Safety Information meeting has been scheduled for October 25-27 at the Bethesda Marriott Hotel in Bethesda, Maryland.

Representatives from government laboratories, research firms and independent laboratories, reactor vendors, utilities, universities and foreign countries will participate in the meeting at 5151 Pooks Hill Road.

Technical papers on the results of industry-sponsored safety research as well as safety research being conducted in foreign countries will be presented. The agenda for the meeting includes sessions on severe accident research, primary system integrity, advanced reactor research, thermal hydraulics, aging research, advanced instrumentation and control hardware and human factors research.

Additional information regarding the meeting may be obtained by contacting Susan Monteleone, meeting coordinator, Brookhaven National Laboratory, 516/282-7235, or Christine Bonsby, NRC's Office of Nuclear Regulatory Research, 301/492-3618.
