Reference: Docket No. 50-285

SUBJECT: 1999 Fort Calhoun Station (FCS) Radiological Effluent Release Report and Radiological Environmental Operating Report

Omaha Public Power District (OPPD) provides the enclosed two reports required by the FCS Technical Specifications (TS). The first is the Annual Radiological Effluent Release Report for January 1, 1999 through December 31, 1999. This report is submitted in accordance with TS Section 5.9.4.a., and is presented in the format outlined in Regulatory Guide 1.21, Revision 1. The report provides the results of quarterly dose calculations performed in accordance with the Offsite Dose Calculation Manual (ODCM).

During 1999, there was one revision to the ODCM. The revision incorporated updates for results of the 1998 land use survey. No changes were made to the Process Control Program.

The second document is the Annual Radiological Environmental Operating Report for January 1, 1999 through December 31, 1999. This report is submitted in accordance with TS Section 5.9.4.b, and is consistent with the objectives specified in Section 5 of the ODCM.
