**BROWNS FERRY NUCLEAR PLANT (BFN) - RESPONSE TO NRC
REGULATORY ISSUE SUMMARY (RIS) 2000-04 "OPERATING REACTOR
LICENSING ACTION ESTIMATES"**

This letter provides Browns Ferry's anticipated licensing actions requiring NRC review and approval as requested by the subject document dated March 16, 2000. BFN projects eighteen licensing actions to be submitted during the remainder of Fiscal Year (FY) 2000 and nineteen during FY 2001. Only one of these, a high density spent fuel storage system installation on units 1, 2 and 3 planned for FY 2001, would classify as a complex review in the context used in RIS 2000-04.

If you have any questions, please telephone me at (256) 729-2636.

Sincerely,

T. E. Abney
Manager of Licensing
and Industry Affairs
